# MOXICOM IS AN ECOMMERCE PLATFORM THAT CAN DO IT ALL!

It helps you build your website, manage your content, connect with your customers, integrate automation, and much more.

# INTRODUCTION

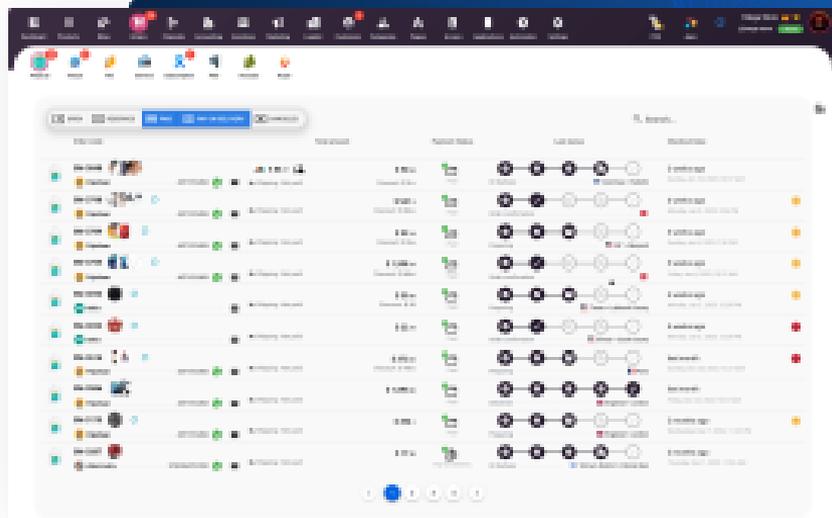

With Moxicom replace endless plugins and apps with just one.

Run your business like the experts do with our top-quality business operating system. It's super powerful, doesn't need coding, and can handle lots of orders while also automating your work.

All features are pre-built for your business OS.

You don't have to spend lots of money on plugins and apps every month or stress about updates. Moxicom takes care of all the technical stuff for you.

Turn your ideas into reality with just a few clicks.

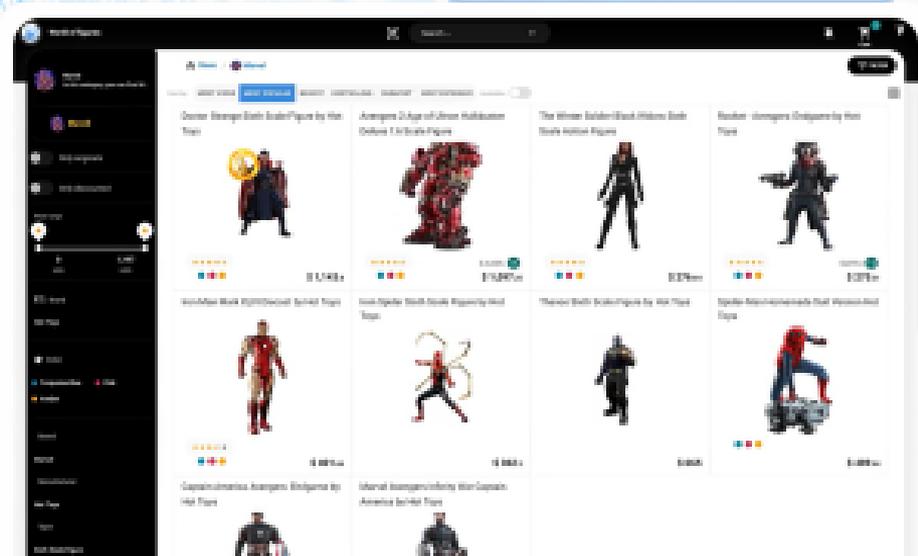

The image features a dark blue background on the left side, transitioning into a light gray circle on the right. The blue background is filled with intricate, wavy, concentric lines that create a sense of depth and movement. The word "BUILD" is centered within the light gray circle in a bold, dark blue, sans-serif font. The overall composition is clean and modern, with a strong contrast between the blue and gray tones.

# LINK YOUR PHYSICAL STORE TO YOUR ONLINE SHOP FOR BETTER COORDINATION.

Manage everything like a pro business owner, whether you're at your store, have lots of money, or sell on different platforms.

# EARN MONEY 24/7

No matter where you sell your stuff - in your store, on the internet, or on social media Moxicom has everything you need to make your online sales a success.

**CUSTOM  
COMMUNITY**

# WHY CREATE A COMMUNITY?

To get your customers more involved.

Make more money than just selling stuff and save a lot on customer service with a platform that helps you build a community for your business and your customers.

# MAKE YOUR VIEWERS YOUR TEAMMATES!

## CUSTOMER LOYALTY PROGRAM

Keep more customers and make more money by focusing on your customers.

## SUPPORT AND FEEDBACKS

Let your community members ask and answer questions and share their thoughts.

## ADVOCACY AND RISK REDUCTION

Turn your average audience into super fans who support your brand like family.

# ADVANTAGES OF LAUNCHING A SOCIAL NETWORK FOR YOUR COMPANY

01

## GET FREE CONTENT AND SEO

At the start, you should put useful things in your community to get people interested. Later on, your audience will start posting their own stuff.

04

## INCREASE YOUR BRAND AWARENESS

Just sending messages from you to your audience won't help you build a brand that connects with people. You need to get your audience involved and create a lively social network around your business.

02

## REDUCE CUSTOMER SUPPORT COSTS

How long do you spend answering customers? Your community members will help each other. This means you won't need to spend as much on answering the same questions over and over.

05

## BUILD A GROUP OF LOYAL CUSTOMERS

Make a place online for your loyal customers; they'll do the rest. These loyal customers will stand up for their choice to use your services and, in turn, will be like defenders and promoters of your brand.

03

## SELL PRODUCT AND SERVICES

People considering your products can see what others think, and this can have a bigger effect on their decision than any ads from you.

06

## GET FEEDBACK & IMPROVE UX

Make a place online for your loyal customers; they'll do the rest. These loyal customers will stand up for their choice to use your services and, in turn, will be like defenders and promoters of your brand.

# EARN FROM YOUR FOLLOWERS.

Turn the people who follow you into customers by selling them access to something.

Your audience is interested and getting bigger, so find a way to make some money.

The image shows a screenshot of a social media monetization interface. At the top, there are tabs for 'Text', 'SEO', 'Configuration', and 'Monetize' (which is active). Below the tabs, there are several callout boxes highlighting different features:

At the bottom right of the interface, there is a 'SEND POST' button with a right-pointing arrow.

# COMMUNITY PARADIGM

A new way of doing business for everyone, everywhere, at any age  
and any budget.

## CATEGORY & SPACE

Organize things neatly for  
easy use.

## TOPIC

People can ask questions,  
discuss ideas, and give  
feedback by making topics.

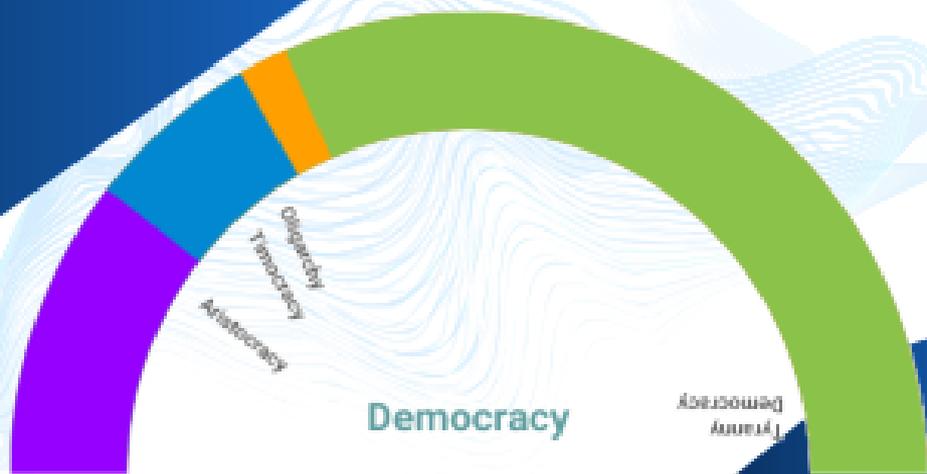

## POST & COMMENT

Anyone can respond to a topic  
with a message and share their  
thoughts on a message in the  
comments.
